about ISBR

An institute of international educational standards, The International School of Business and Research (ISBR) was set up under the aegis of Bangalore Education Trust (established in the year 1990).

The incubators of ISBR had a dream – the dream of a gateway that provides a global outlook, an infrastructure that beckons to explore and learn, a cradle that nurtures high ethical and human values. ISBR stands in the silhouette of such a dream. It is envisioned to become a globally recognized center of learning and research.

The edifice of ISBR is built on the foundation of three building blocks – the Governing Council, the Academic Advisory Board and the Board of Studies. These apex bodies, individually and collectively, contribute towards high standards of academic governance.

With the competence and experience of the best minds from academics and industry, ISBR Business School is envisioned as an institute of high academic standards. The spirit of excellence that has founded ISBR Business School will remain the driving force. ISBR is committed to excellence in scholarship, training and service.

ISBR Business School takes pride in being a place where students and faculty can pursue knowledge without boundaries, a place where theory and practice combine to produce a better understanding of our world and ourselves. ISBR education prepares you to think on your feet and act decisively in any business environment.

At ISBR, the focus goes beyond education. ISBR aims to prepare students for life – ingraining in them the psyche of an eternal student – making them leaders, a leader who is an ever learner, driven by thirst for knowledge and the passion to excel and ignited with the desire to achieve success for life.

It is often difficult to make decisions in life if one focuses only on outcomes rather than enjoying the process and living with a desire to seek knowledge, only helps to achieve great heights. I'm happy that I chose ISBR for my PGDM program which is a great platform that benefits us to discover new perspectives in life. ISBR helps us to bridge the gap between the outside world and within ourselves. Glad to be a member of this family!

My journey with ISBR has been nothing but fruitful, enriching and wonderful. I enrolled myself for ISBR's PGDM program in the year 2020 and there was no looking back ever since. At ISBR there are a ton of opportunities that enable you to be the best version of yourself and achieve to the fullest of your potential.

The faculty is great and supporting and they only make sure to give you all the best mentoring, guidance that you require. There are yet many elements at ISBR like diverse culture, friendly atmosphere, student driven clubs, webinars, guest lectures, field trips, one-to-one mentorship, placements etc. Talking of which, it rains opportunities at ISBR with respect to getting placed

Change was constant during my two years of PGDM journey where I tried to improve myself to match the competitive world. Trusting oneself, the process, people and having clarity on your goals is critical. Faculty of ISBR and support staff were constantly involved in guiding and supporting us in all the possible ways. I got placed in 42Gears Mobility Systems as a Product Marketing Specialist during our campus placements. The journey from a management student to a working professional is a day to day process which demanded my constant efforts

I am V Indhumathi working as Associate Analyst at Envision Financial Systems. ISBR has been really helpful in upskilling myself. Academics were taught with real life examples to correlate. Each one of us was given importance by allocating corporate mentors to have a blend of corporate and academic experience.

The faculty and the placement committee support was constant till the last minute. I am very thankful to ISBR for giving me a platform to know who I am now.

The two years of hybrid journey in ISBR Business School has been the best of all. The institute took us through all the experiences towards grooming ourselves. All the guest sessions arranged were so inspiring and value adding. The placement process was planned in a way to mold the students to fit in their area of interest. Starting with aptitude to mock GD and PIs, I have noticed the change it brought to me. Thanks to ISBR for building a foundation of my career.

My experience at ISBR Business School was enriching in terms of technical skills and research training. Since my interests were inclined towards business analytics, I was very much fulfilled by the trainings given by the faculty at ISBR. The faculty have taken us through various workshops, seminars and hands on teaching techniques which proved to be very helpful for promoting self interest in academics as well as for getting confidence in our placements. It played a tremendous role in getting me the job role that I was interested in, thanks to the amazing and hardworking faculty and student coordinators who have rich connections with the placement industry.

ISBR for me is something more than just an institute I graduated from. To me it was a platform to learn, explore and discover an entire new world. I am grateful to ISBR for giving me exposure to the industry and right training to get placed at ANZ. Working at ANZ was an amazing experience where I was able to learn new things, interact with management and understand the working of the Australian Banking industry.
